## Precautions

- Choose the mounting location carefully, observing the following:
  - The unit is not subject to temperatures exceeding 55°C (131°F) (such as in a car parked in direct sunlight).
  - The unit is not subject to direct sunlight.
  - The unit is not near heat sources (such as heaters).
  - The unit is not exposed to rain or moisture.
  - The unit is not exposed to excessive dust or dirt.
  - The unit is not subject to excessive vibration.
  - The fuel tank should not be damaged by the tapping screws.
  - There should be no wire harnesses or pipes under the place where you are going to install the unit.
  - The spare tire, tools or other equipment in or under the trunk should not be interfered with or damaged by the screws or the unit itself.
- Be sure to use only the supplied mounting hardware for a safe and secure installation.
- Use only the supplied screws.
- Make holes of  $\phi 3.5$  mm ( $\frac{1}{32}$  in.) only after making sure there is nothing on the other side of the mounting surface.

## How to install the unit

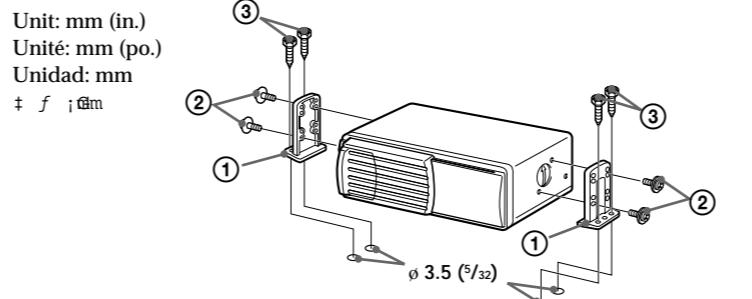

The brackets ① provide two positions for mounting, high and low. Use the appropriate screw holes according to your preference.

### Horizontal installation

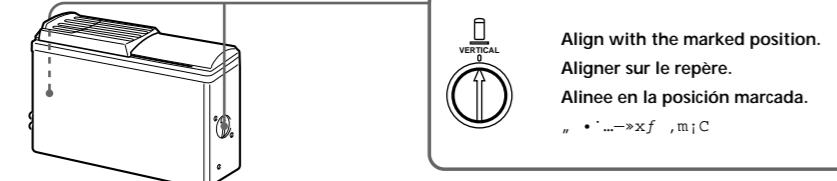

1

2

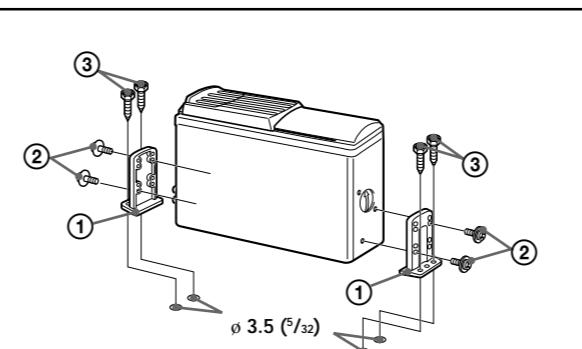

### Vertical installation

1

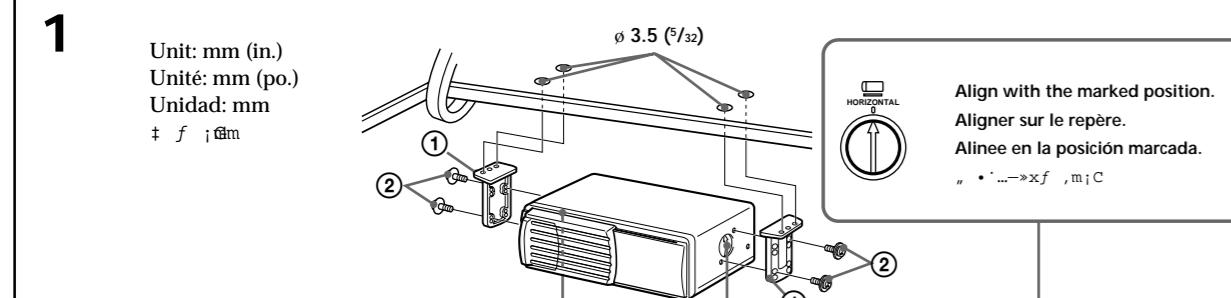

2

### Suspended installation

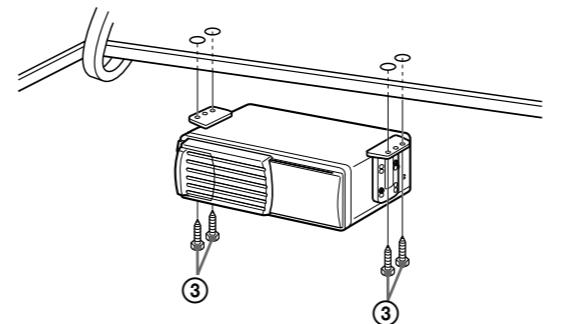

When the unit is to be installed under the rear tray etc. in the trunk compartment, make sure the following provisions are made.

- Choose the mounting location carefully so that the unit can be installed horizontally.
- Make sure the unit does not hinder the movement of the torsion bar spring etc. of the trunk lid.

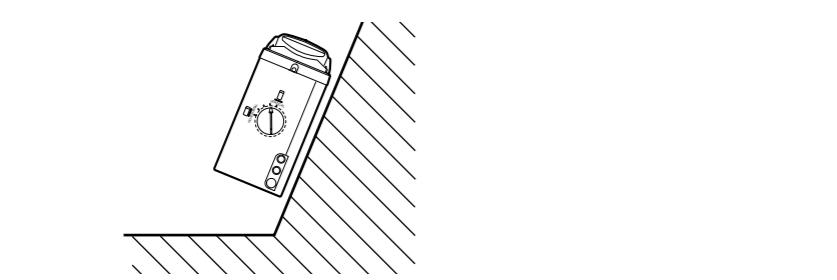

1

2

### Inclined installation

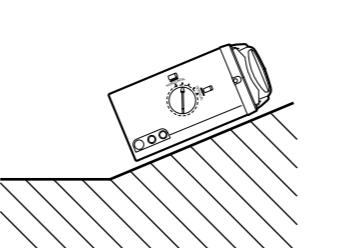

After installing the unit, align the dials with one of the marks so that the arrows are as vertical as possible.

**Note**  
Be sure to align the left and right dials with the same mark.

### Installation inclinée

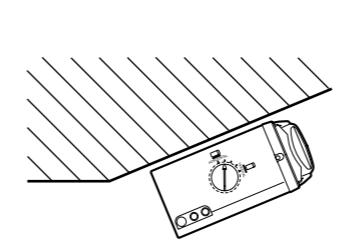

Après avoir installé l'appareil, alignez les disques sur un repère de façon à ce que les flèches soient dans la position la plus verticale possible.

**Remarque**  
Veillez à aligner les disques gauche et droit sur le même repère.

### Instalación inclinada

Una vez instalada la unidad, alíneelos diales de forma que una de las marcas de las flechas se encuentre en la posición más vertical posible.

**Nota**  
Asegúrese de alinear los diales izquierdo y derecho con la misma marca.

## Precautions

- Eliga cuidadosamente el lugar de montaje y tenga en cuenta lo siguiente:
  - La unidad no queda sometida a temperaturas superiores a los 55°C (como en un automóvil aparcado a la luz solar directa).
  - La unidad no queda sometida a la luz solar directa.
  - La unidad no queda cercana a fuentes térmicas (como aparatos de calefacción).
  - La unidad no queda expuesta a la lluvia o a la humedad.
  - La unidad no queda expuesta a polvo o sucededas excesivas.
  - El depósito de combustible no deberá darse con los tornillos autorroscantes.
  - No deberá haber mazos de conductores ni tubos debajo del lugar donde vaya a instalar la unidad.
  - La rueda de repuesto, las herramientas, u otros equipos situados dentro o debajo del portaequipajes no deberán verse interferidos ni dañados por los tornillos ni por la propia unidad.
  - Para realizar una instalación segura, emplee solamente la ferretería de montaje suministrada.
  - Utilice sólo los tornillos suministrados.
  - Antes de hacer los orificios de  $\phi 3.5$  mm, compruebe que no haya nada en el otro lado de la superficie de montaje.

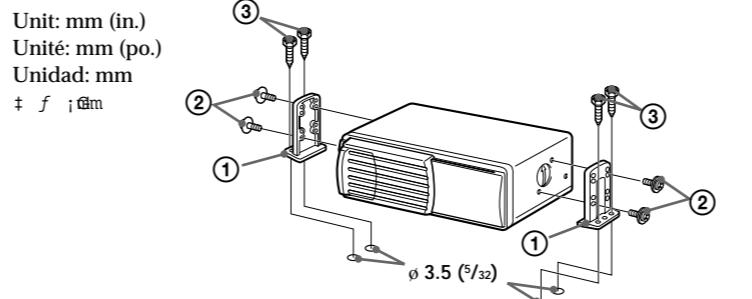

## Instalación de la unidad

Los soportes ① proporcionan dos posiciones de montaje, alta y baja. Utilice los orificios para tornillo apropiados según sus preferencias.

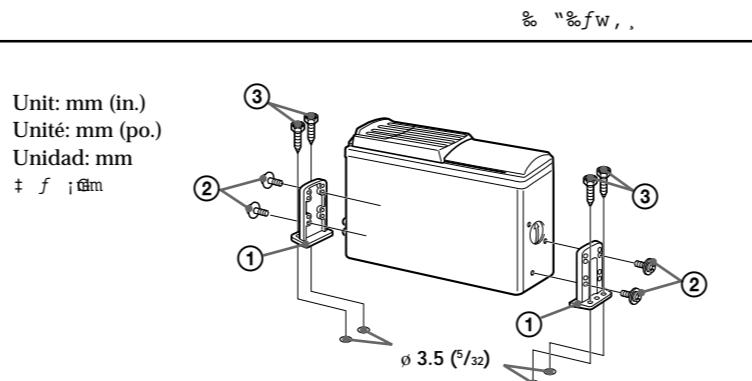

### Instalación horizontal

### Instalación vertical

### Instalación suspendida

Si va a instalar la unidad debajo de la bandeja trasera, etc., del maletero, tenga en cuenta lo siguiente:

- Bien choisir l'emplacement pour pouvoir installer l'appareil à l'horizontale.
- Vérifier que l'appareil ne gêne pas les mouvements du ressort de fermeture du coffre, entre autres.
